Can you recommend a pair of jeans that will flatter my fuller figure?

Look out for these amazing **Tummy Tuck** Jeans (below). They enhance the figure by shaping the hips and smoothing the stomach, and are made with denim that has been engineered to flatten the stomach with this season's fashionable higher waist. A combination of a criss-cross panel within the jeans and extra stretch denim at the rear lifts the bottom, creating a corseting effect without any discomfort. Tummy Tuck Jeans (sizes 12-34) are available in straight and boot-cut styles in three washes, and cost from £89 (tummytuckjeans.com, 020 7323 2049).

slim-cut jeans have become wardrobe staples - a perfect fit wearing both day and night. But the new season's 'slim' jeans, with higher waists and a criss-cross panel, are a game-changer. They're designed to flatter fuller figures, and they're here to stay. **BEST FOR:** Fuller, but not overweight. The higher waistline is a key feature for fuller figures, as it helps to create a slim impression for curves and gives a more defined waistline. It's a great choice for those who want to wear jeans that are both flattering and comfortable. Plus, you can wear them with high shoes, flats, and boots. **STEER CLEAR:** Very tight, baggy jeans. **A-LIST FANS:** Victoria Beckham, Mary-Kate and Ashley Olsen.
